Report of the Superintendent of Schools,
to the School Board
For the Year Ending March 1, 1889.

One or more terms of School have been held in each School house in town, except No. 4, 5 and 9.

School No. 1. Clough.

This School was difficult to manage, both on account of the crowded state of the room and of the great number of classes rendered necessary by the difference in the ages of the scholars. It could have been only by the most faithful efforts of the teacher, that the very creditable results was secured.

The marked advancement in both departments of School No. 2, has been fully sustained. A high state of discipline was maintained, with, apparently, no resort to severe measures; good order prevailed; and it was clear that the Scholars expected to attend to the business of the school. Habits of study formed under such a thorough system of instruction, must prove a lasting influence of incalculable benefit to those instructed.

The two terms in No. 3, East Warren, were profitable to those attending regularly—the discipline, wisely firm and the methods of instruction, excellent.

In School No. 6, Swain Hill

Miss Page, in the Summer term, was specially successful in the use of the blackboard, taking almost the whole school through the rudiments of Grammar, without a text-book. Good progress was made in all branches studied, which was well sustained in the second term, under Mr. Eaton.

School No. 7,

Warren Summit was taught in both terms by Miss Carleton, a very competent and successful teacher who secured thorough work and good progress on the part of those pupils who attended regularly but, to many of the scholars, the school was not of much account, because of frequent absences.

School No. 8,

Ore Hill is a small school; the scholars mostly young. The faithful labors of Miss King in the spring term, and of Miss Pillsbury in the fall, were well seconded by the scholars. The examination at the close of the fall term, showed very thorough acquaintance with the studies pursued.

In School No. 10,

Breezy Point, there was evidence of efficiency on the part of the teacher, Miss Wales, and a profitable School.

There is in all the Schools, marked improvement in Class drill. The successful teacher will also, lead his pupils to application and of Mental activity, resulting in power to grasp and master any subject. Too much help from the teacher, injures the Scholar, by preventing Mental effort.

With most of the pupils in our schools, Arithmetic is the one study; Geography and Grammar are taken by a considerable number. I am sure that most of the Scholars over twelve years of age, would be profited by the addition of History and Physiology to the list of studies.

ROLL OF HONOR.

Perfect attendance during one term: Alice M. Bake, Harry Blake, Guy B. Clement, Alice M. Bartlett, Grace B. Prescott, Gipsie L. Whitcher, Ira H. Morse, Belinda I. Batchelder, Kate C. Weeks, Charles C. Bartlett, Bert K. Foot, Fred N. Upton, Fred M. Weeks, Alice S. Buswell, Guy C. Foot, Lee A. Clement, Edouard G. Merrill, Leslie M. Foot, Alice B. Whitcher, Grace E. French, Josie R. Swain, Anne L. Swain, Edwin K. Gould, Eugene H. Gould, Addie D. Little, J. Ralph Little, Dick Little, Lettie C. Little, Mabel E. Houghton, Nettie M. Merrill, Nannie E. Houghton, Nelson T. Merrill, John D. Merrill, Maynard E. Cummings, Mattie M. Cummings.

Perfect attendance during the year; Edith M. Leonard, Blanche M. Anns, Laura K. Anns, Wayland Batchelder, Maynard K. Batchelder, Harry L. Hillman, Martha L. Cummings, Jennie Tibbitts, Lena O. Merrill, Fanny J. Merrill.

Martha L. Cummings has perfect attendance for the last three years.

Length of all the schools in weeks during the year, 115. Whole number of Scholars attending not less than two weeks, not including one from Benton, 137.
